

Gate Automation Systems (Irl)

Company Profile

Gate Automation Systems (Irl.) is a major company in the field of Gate Automation and Access Control in Ireland. Since the company began in 1990 it has built a strong presence in the field of Automated Access Control Systems, becoming synonymous with 1st Class products, installation and associated services. We pride ourselves on offering world-class products at keenly competitive prices.

Located in Ennis, Co. Clare, and only 15 minutes from Shannon International Airport, **Gate Automation Systems (Irl.)** is ideally located to carry out projects throughout Ireland, Europe and further afield. Such location gives **Gate Automation Systems (Irl.)** a strong competitive advantage to quickly source products as well as facilitating the development of its business on an international scale.

It has forged strong relationships with high-profile companies in the construction industry, government agencies, and in sectors where dependable access control is vital, e.g. Airport security systems.

Product Range

Gate Automation Systems (Irl.) range of Automatic Gates and Doors, Barrier Systems, Bollard Systems, Turnstiles, Fencing and Roadblockers is designed to increase security and optimize manpower at entrance points. The Company prides itself on providing tailor made efficient and effect systems to meet the individual needs of clients. The Automatic Access Systems are professionally designed and manufactured to the highest European standards under strict supervision and quality control.

The Company specialises in all types of Automatic Gates, Traffic Barriers, Bollards (fixed, removable & automatic), Car Parking Systems, Access Control Systems, CCTV and Robotic Parking Systems. It offers a full design service consisting of civil, mechanical, and electrical engineering.

Please see our website www.automationgate.com for further details.

Quality & Service

The Company's commitment to quality and professional service is an integral part of its success. **Gate Automation System (Irl.)** prides itself on not only supplying and installing the highest quality products but also providing a first class service to every client, big or small, from initial enquiry through to after sales service. We have an excellent track record of maintaining systems for public bodies such as the Office of Public Works, the ESB and various locations for the Department of Education. The Company has been supplying and installing Access Control Systems throughout Ireland

for over 15 years. **Gate Automation System (Irl.)** is constantly reviewing and upgrading its supply network to ensure the best possible product offering to meet Client's individual needs.
