ELKA Barrier System Accessories

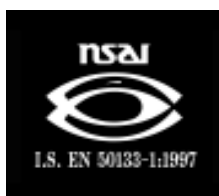

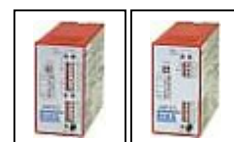

Supports

1. Fixed Support – for ES 25-80
2. Fixed Support – with electromagnetic, 2000N variable height, for ES 25-80
3. Swinging Support – for ES 40-80
4. Articulation kit – for ES 25-40
5. Articulation kit – for ES 50 and ES 60 without boom

Access Control

6. Magnetic Key Reader – flush or surface mounting with 2 keys
7. Coded Magnetic Keys – for magnetic key reader (pack of ten)
8. Code switch – with foil keys
9. Contact – mounted, for ES 25-40
10. Photoelectric barrier – 24V, transmitter and receiver 10m range
11. Induction loop – with 6, 8, 10, 12 or 16m perimeter 12m lead
12. Loop detector, 1-channel – for 1 induction loop
13. Loop detector, 2-channel – for two induction loops, reversible for direction logic
14. Card reader – for different applications
15. Magnetic cards – for card reader ZUKO 1000 coded and numbered

Brought to you by Gate Automation Systems (Irl)

- 16. Cleaning cards for ZUKO 1000 (pack of 10)
- 17. 7 Day Timer – 2-channel, mounted inside the barrier
- 18. Push Button Open/ Stop/ Close – plastic housing, IP65, surface mounting
- 19. Intercom – with speaker module, call button, rectifier and indoor telephone, mounted, without housing
- 20. Key switch – flush or surface mounting with cylinder and 3 keys
- 21. Key Switch STAZ – open/ close, flush or surface mounting with cylinder and 3 keys
- 22. Key Switch STR – lockable, for example, constantly open, flush mounting, with cylinder and 3 keys
- 23. Key Switch STTR – for two signals, one impulse and one lockable, flush mounting, with cylinder and 3 keys
- 24. Key Switch STRR – for two signals, lockable at open and closed position, flush mounting, with cylinder and 3 keys

Use of Tokens

- 25. Token acceptor – electronic or mechanical for tokens or coins
- 26. Tokens – for token acceptor (with grooves or with holes), pack of 100

Fire Safety

- 27. Fire emergency release – mechanical, for ES 25-80, not mounted, without key
- 28. Fire emergency release – electrical, for ES 25-80, not mounted, without key

Lighting

- 29. Traffic lights – red or green, 230V with wall fixing, 150x150mm
- 30. Flashing light – 230V, 40W
- 31. Lighting for Boom – for ES 50-80, 2 red lights, incl. supply, mounted

Other Accessories

- 32. Heating for barrier housing – 45W, mounted inside barrier housing or periphery housing
- 33. Stabilisation ropes – for ES 60 and ES 80
- 34. Folding skirt 75 – red/ white, for ES 50-80
- 35. Folding skirt 150 – white, for ES 60, max. 4,500mm long; for ES 80, max. 6,000mm long
- 36. Folding top and bottom skirt 150 – white, for ES 60, max 4,500mm long; for ES 80, max. 6,000mm long
