LE Stainless Steel Fixed Bollard

Simple to use and easily integrated into urban furnishing, the range of bollards provides a revolutionary service allowing the available areas to be exploited to the maximum. This range of cylindrical bollards are of exceptional strength, performing the function of genuine deterrents, guaranteeing pedestrian access but blocking the area to road traffic without altering the character of the area.

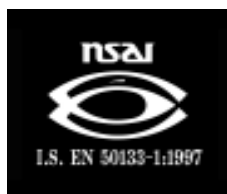

Features

- Cylinder height: 900mm
- Cylinder diameter: 75mm, 115mm, 168mm, 210mm
- Finishes: Standard FE37 matt steel and polished stainless steel optional finishes, others available on request.

Extras available

- Pressed Caps
- Angle Caps
- Dome Caps
- Reflective Bands
- Ground Sockets
