Maximum freedom.
Always at ease, also
when away from the home.

Thanks to the **built-in Wi-Fi connectivity,**
Classe 100X gives the possibility of managing
various functions quickly and
safely using the smartphone.

Full screen,
compact view.

The **5" display** always ensures great
visibility, irrespective of the type of
installation.

Thin and minimal.

Modern design combined with **small thickness, lightness and solidity:** this is the characteristic design of the new Classe 100.

Integration between physical and digital controls for better user experience.

New tilting control to answer and end the call, together with a range of touch controls for other functions.
